

## 40150 Take Off Board “Three in One”

Blanking Beam

Training

Competition

Take-off board. The “three in one” (122 x 34 x 10 cm) take- of board provides maximum flexibility. The individual segments can be simply taken out and turned around so that the take-off boards can be used in three separate ways.

1. Take-off board for competitions, reversible profile with an inlay for the indicator board.
2. Take-off board for school sports or training. In this case the reversible profile just has to be turned around.
3. Take-off board used as a blanking board.

The aluminium carrier profile of the “three in one” take-off board is covered with a hardened running track synthetic. Both the running track synthetic and the white plastic on the take-off surface are additionally UV stabilised to prevent the colours from fading.
