

Banking Beam Lockable System

40011: The blanking beam made from aluminium with the dimensions 122 x 34 x 10 cm. This beam is not covered at the factory and can be covered on site. The dimension fits perfectly the installation trough and is equipped with stainless steel vertical adjustment bolts to level the blanking beams, and with horizontal ones to secure it to the installation trough, preventing it from moving during use.

- Lockable
- Height adjustable
