

Starter Podium

#10180: Exclusive Starter Podium (Aluminium surface)

The exclusive starter podium is made from aluminium. The rostrum measures a total height of 100 cm. The podium is manufactured from a special square hollow profile of 40x3 mm with rounded edges. The base platform is made from a special double hollow profile with an anti-slip surface. The front of the podium is covered with 3 mm thick polycarbonate sheets. Furthermore, it is equipped with two wheels to allow a positioning wherever it is needed. The podium is powder coated and can be purchased in assorted colours.
