

## Floor Plate for Indoor Goal Post

**70180:** The floor plate is made from stainless steel. It is used to fix the goal post to the floor. The plate can be installed after the flooring is done.

**70190:** The safety screw is made from two parts: the screw and the handle. The handle is made from aluminium, whereas the screw is made from stainless steel. It is used to fix the goal post to the floor plate.
