

AFN Basketball System (Oil Hydraulic)

The basketball system 'Pro' is made from special aluminium profiles. The system is movable and can be folded for storage. The folding mechanism is realized with an oil hydraulic and alternative with spring load system. The system is equipped with nine non-marking PP wheels. Three of these wheels are mounted on a swivel to allow easy manoeuvring of the system. The system is equipped with sufficient counter weight to keep the system in a stable position. The height and the level of the backboard can be adjusted on site. The acrylic backboard is made from see through 15 mm thick acrylic. The basketball system 'Prop' post is also equipped with a non-foldable basketball ring and net. The ring measures an inside diameter of 45 cm. The ring is galvanized and orange powder coated. The net is made from nylon and measures a thickness of 6 mm. The item is not certified by FIBA.

OIL HYDRAULIK

100126: Oeldynamic with manual pump. Acrylic Backboard. Projection 2.25 m

100126/GB: Oeldynamic with manual pump. Glass backboard and foldable ring. Projection 2.25 m

100127: Oeldynamic with manual pump. Acrylic Backboard. Projection 3,30 m

100127/GB: Oeldynamic with manual pump. Glass backboard and foldable ring. Projection 3,30 m

100128: Oeldynamic with manual pump. Acrylic Backboard. Projection 1,65 m

100128/GB: Oeldynamic with manual pump. Glass backboard and foldable ring. Projection 1,65 m

SPRING LOAD SYSTEM

100126/SP: Spring Load system. With acrylic Backboard. Projection 2.25 m

100126/GB/SP: Spring Load system. With glass backboard and foldable ring. Projection 2.25 m

100127/SP: Spring Load system. With acrylic Backboard. Projection 3,30 m

100127/GB/SP: Spring Load system. With glass backboard and foldable ring Projection 3,30 m

100128/SP: Spring Load system. With acrylic Backboard. Projection 1,65 m

100128/GB/SP: Spring Load system. With glass backboard and foldable ring. Projection 1,65 m

This basketball system comes without FIBA certificate.
